

Peace of Mind is what we need now more than ever!

Should Long-Term Care be part of a Retirement Portfolio?

When it comes to retirement planning it's helpful to have specialists in each field to get the best outcome. We work together with financial advisors to provide the best solution for the Long-Term Care needs of our client's future.

What will not change...

...is the need to prepare for a long-term care event. According to the Department of Health & Human Services you have a 70% chance of needing long-term care once you turn 65. When investments are down is not the time to liquidate assets to pay for an unexpected health change that requires long-term care.

Benefits for your family!

Your rainy-day savings can be turned into protection against the high cost of needing extended care. Long-term care benefits offer peace of mind and dependability. During these uncertain times, we all want certainty for our family.

The importance of a Licensed Specialist:

If you would like to look at your personalized options with the assistance of an experienced specialist responding to your concerns, you're in the right place! To provide you with a quote, I need a few minutes of your time. Please schedule a call here: <https://calendly.com/pegfields/call>

Thank you, Peggy Fields, Licensed Long-Term Care Consultant (704) 839-1158
